Anonymous.- Banks require farm erosion prevention. Engineering news-record. v. 104, no. 9. February 27, 1930. p. 358.

Alarmed by rate at which soil is being washed down rivers to sea, some of federal land banks are making conditions on loans specifying steps to be taken to prevent erosion.

Anonymous.- Preventable soil erosion impoverishing nation's farms: Editorial Manufacturers record. v.98, no. 12. September 18, 1930. p. 42.

It is estimated that 3/4 of tillable area of country is affected, and unless preventive measures are immediately taken, this land will in time be as worthless as the 17,000,000 acres of formerly good land that has been gullied and depleted to such an extent that its owners can not afford to reclaim it.

----- Re-afforesting and conservation of soils. Jamaica Agricultural society Journal. v. 29. December 1925. pp. 506-513.

----- Resolutions of the soil erosion council, at Pretoria, South Africa. November 14, 1929. Farming in South Africa. v. 5, December 1930. p. 451, 454.

----- Road culvert checks destructive storm water flow. Engineering news-record. v. 81. no. 14. October 3, 1918. pp. 613-614.

New design prevents erosion of ditches and farm lands. Guards against washouts and fills gullies by silting.

----- Save Iowa soils. Iowa State College of agriculture. Extension service. 1930. 8 p.

----- Soil erosion. Tropical agriculturist. v. 64. January, 1925. pp.1-3.
